SwapnoDanga Agro

"Safe & Natural Food For Sustainable Future"

1. 🌱 Company Overview

Company Name: SwapnoDanga Agro
Location: Bogura, Bangladesh
Founded: 2020
Business Type: Integrated Agro-Ecosystem
SwapnoDanga Agro is a vertically integrated farming business producing:
Poultry (Broiler Chicken)
Fisheries
Dairy Milk
Cattle & Goat Meat
Organic Vegetables & Crops
We operate a closed-loop agro ecosystem, controlling production from feed to final product.

2. 👥 Founding Team

Mahinur Rahman Sagar
Arif Raihan
Rashad Alam Khan
We are hands-on operators with practical farming experience and a strong vision for scalable agribusiness.

3. 🌎 Vision & Mission

Vision:

To become a leading sustainable agro brand in Bangladesh.

Mission:

To deliver safe, natural, and affordable food while building an efficient, eco-friendly farming ecosystem.

4. 🚜 Assets & Infrastructure

Owned Assets:

1 acre land

2.5 acres fish pond

Farming Infrastructure:

Poultry Shed: 4,500 broiler capacity

Dairy Farm: 20+ cows capacity

Leased Land:

5 acres (rice, corn, grass cultivation)

5. 🔄 Business Model (Ecosystem Approach)

We operate a circular agro system:

Own feed production → reduces cost

Poultry waste → used as fish feed & fertilizer

Crop production → supports cattle feed

Dairy & livestock → multiple revenue streams

➡️ This integration reduces waste and increases efficiency.

6. 💰 Current Financial Performance (Annual)

Segment

Revenue (BDT)

Revenue (USD)

Fisheries

15,00,000

~$13,600
Dairy (Cows)
6,00,000
~$5,450
Poultry
10–12,00,000
~$9,100–10,900
Crops
4,00,000
~$3,640
Total Annual Revenue:
👉 ~$31,800 – $33,600
✅ The business is currently profitable
❗ However, margins are limited due to external feed & chick sourcing

7. ⚠️ Problem Statement
High cost of poultry feed
Dependency on external chick suppliers
Low profit margins despite strong revenue
Lack of technical optimization & scaling strategy

8. 🚀 Growth Opportunity
By investing in:
Own feed production unit
Own hatchery (chick production)
We can:
Reduce production cost by 25–40%
Increase poultry profit margins significantly
Scale production capacity
Control quality fully

9. 📈 Expansion Plan

Phase 1:
Feed mill setup
Chick hatchery
Phase 2:
Increase poultry capacity
Expand dairy production
Branded organic product line
Phase 3:
Retail & distribution network
Export potential

10. 💵 Investment Requirement

We are seeking:
Capital Investment (amount can be defined based on scale)
Strategic Mentor / Consultant
Use of Funds:
Feed production plant
Hatchery setup
Farm expansion
Operational efficiency improvement

11. 🎯 Why Invest in SwapnoDanga Agro?

✅ Proven profitable business
✅ Existing infrastructure
✅ Diversified income streams
✅ Strong growth potential
✅ Sustainable & eco-friendly model
✅ Rising demand for safe food in Bangladesh

12. 📊 Future Projection (After Investment)

Revenue growth: 2x–3x within 3 years
Profit margin increase: +30–50%
Expansion into branded agro products

13. 🤝 What We Need

Investment partner
Agro industry mentor
Technical consultant
We are ready to scale — with the right support.

14. 📞 Contact Information

📱 Phone: +8801756767691
